Floods  
Tornadoes  
Hurricanes  
Earthquakes  
Explosions

## INSTRUCTIONS:

Cut only the dashed lines and remove waste. Be sure to leave the small 'inside flap' in one piece - don't cut through the flap. Fold inside flaps (on either side of these instructions) first covering them with the flaps covered with text. Tape the side support flaps to the bottom to increase the bottom's support. Tape or glue together. Holder may stand or be placed on a wall.
